

How to make Orange & Clove Pomander Balls

Pomander balls are simply oranges pierced by cloves. As the fruit dries, it releases a lovely fragrance. Pomanders make beautiful centerpieces, gifts for friends, tree ornaments and air fresheners.

- Take firm oranges and stud them with whole cloves.
- We suggest a toothpick or skewer to make pre-made holes.
- Be creative and arrange the cloves in diamonds, circles or other patterns. As the orange dries, it will release a delicate, spicy fragrance.

You can tie a ribbon around your pomander for a festive look or tuck into an arrangement to add a pop of colour and fragrance.
